

PASSWORD SECURITY

CREATE STRONG PASSPHRASES

Long

Use passphrases that are at least 14 characters long

Unpredictable

Combine four or more random, unrelated words:

Unique

crystal onion
clay pretzel

UTILIZE MULTI-FACTOR AUTHENTICATION

Enable MFA wherever possible to add an extra layer of security to your accounts

MANAGE PASSWORDS EFFECTIVELY

Use reputable password managers to store and manage passphrases securely

Ensure your password manager is protected with a strong master passphrase and, if available, MFA
